

Workshops Guideline/Agenda

1hr - 2 residents + designer

Introductions (10 mins)

Name, pronouns + whatever information the participants feel comfortable with sharing

Brief introduction of the meeting

- Please be respectful of each other's thoughts/comments
- If you're comfortable with it, please keep your mic unmuted, the workshop should flow as a regular conversation so maintain casual conversation and feel free to speak up/chime in whenever you want to
- The purpose of this workshop is to better understand emotional reactions to spaces within East Boston and how these can help us capture what a space of "belonging" would be like

Reactionary (20 mins)

Show street images to participants then gather their thoughts/reactions. Repeat for all 6 scenarios

- Initial thoughts about this space (no prompt)
- If you were walking around this area how would you feel?
- Who do you see in this space?
 - Who lives here? Who passes by?
- Describe this space in 3 simple words

Show taxonomy diagrams

- What do you understand from these representations, if anything?

Ideation (20 mins)

Feeding off of the previous questions, how can we create ways to dissect and understand these situations better?

- What would make the taxonomies better to exemplify your reactions/understandings in the previous exercise?
- What are some key things you would like to see represented in graphics talking about these issues?
 - Gentrification
 - Community
 - Belonging
- What format do you think makes the most sense for relaying this information to others?
 - Writing
 - Graphics
 - What kind?
 - Videos/narration

Create a diagram based on these ideas together

Debrief (10 minutes)

Any other comments/questions/concerns you would like me to be aware of

A follow-up survey along the same lines of this workshop will be sent

Survey should not take longer than 10 minutes to complete, your answers will be connected to your persona but your identity is not disclosed
